Specific Shared Prosperity Fund North Wales guidelines

PR and Marketing toolkit

[Shared Prosperity Fund North Wales](#)

Branding and publicity play a key role in ensuring effective promotion and acknowledgement of the wider UK government agenda and as part of that the UK Shared Prosperity Fund.

These requirements relate to all communications materials and public facing documents relating to funded activity – including print and publications, through to digital and electronic materials. This includes any preparatory activity linked to the Fund.

Compliance with branding and publicity requirements is a condition of the Shared Prosperity Fund: North Wales Grant Funding Agreement.

# Logo Placement on Project Materials

## Importance of Logo Placement

Proper logo placement ensures branding compliance and visibility on all project materials, enhancing recognition of funding sources.

## Branding Guidelines Compliance

The logo of each North Wales local authority funding the project via UKSPF should be used in all communication materials and public-facing documents relating to the funded activity.

The logos should appear in the 'funding partner' position, as shown in the Funded by UK government Branding Manual.

## Evidence and Documentation

Photographs, scanned copies, and screenshots provide proof of correct logo placement for compliance verification.
